Section 6. **Accidental Release Measures**

Wear protective gear as detailed in Section 8. Evacuate all unnecessary personnel. Avoid contact with skin, eyes and clothes. Remove all sources of ignition. Provide adequate ventilation. Avoid breathing fumes, gas, mist, vapours or spray.

Do not allow to enter into surface water or drains. In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities.

Prevent spread over a wide area (e.g. by containment or oil barriers). Absorb with liquid-binding material (sand, diatomaceous earth, acid- or universal binding agents). Treat the recovered material as prescribed in the section on waste disposal.

Dispose of waste according to the applicable local regulations detailed in Section 13.

- If local exhaust ventilation is not possible or not sufficient, the entire working area should be ventilated by technical means.
- Take precautionary measures against static discharges.
- Keep away from sources of ignition No smoking.
- Heating causes rise in pressure with risk of bursting.
- Avoid release to the environment.
